CROWN MOUNTAIN SOLUTIONS

DATA CENTRE POWER & BUILD SOLUTIONS
UNITED STATES · CANADA

FOR DATA CENTRE OWNERS, DEVELOPERS AND BUILDERS

Build faster. Spend less.

Tier-1 power equipment leaves the factory in about 3 months. Prefabricated modules, a design team and one contract do the rest.

EQUIPMENT LEAD TIME · ORDER TO EX-WORKS

20+ data centre projects completed in 2026 for major technology companies

01 · SPEED

Half the lead time

Most products ship within 3 months. Air freight is available for urgent orders.

02 · COST

Lower project cost

Factory-direct pricing on tier-1 brands. Prefabrication cuts site labour and schedule risk.

03 · SIMPLICITY

One contract

Design, equipment, prefabricated modules and commissioning from one team.

WHAT WE DELIVER

Prefabricated data centres
Built with Delta. Customised to your spec.

Power equipment
UPS, transformers, switchgear and busway.

Complete power systems
Gas turbine, storage, SST, UPS and lithium.

Design and engineering
5 to 100 MW, from grid connection to rack.

TIER-1 BRANDS WE SUPPLY

Delta · CATL · Oriental Gas · JST · Pearl Electric

For all other equipment, we represent major tier-1 global brands.

ALL PRODUCTS
UL CERTIFIED

Lead times are typical for standard configurations and vary by specification.

01 · PREFABRICATED DATA CENTRES

Built in the factory. Set in place on site.

Delta prefabricated modules, assembled and tested before they ship. Site work is short and predictable.

- All-in-one, modular or subsystem formats
- Air or liquid cooling, Tier III configurations
- **Built to your spec.** Name the products and brands you want and we engineer the package around them.

1 Power 2 Battery 3 IT 4 Cooling

02 · COMPLETE POWER SYSTEMS

One contract. One schedule. One warranty.

ON-SITE POWER

Gas turbine
Oriental Gas

+

Energy storage
CATL

+

SST
Delta · JST

For sites where grid capacity is short or interconnection takes years. 5 to 100 MW.

CRITICAL POWER

UPS
Delta

+

Lithium battery
CATL

Smaller footprint and longer backup than lead-acid.

03 · POWER EQUIPMENT

UL certified. Most ship within 3 months. Factory-direct pricing.

Transformers and switchgear	UPS, busway and PDU	SST	Energy storage and batteries	Gas turbines
JST · Pearl Electric	Delta	Delta · JST	CATL	Oriental Gas

04 · DESIGN TEAM

From load list to commissioned system

- ✓ Load study and single-line diagram
- ✓ Equipment schedule and specifications
- ✓ Redundancy topology, N+1 or 2N
- ✓ Layouts and commissioning support

5 to 100 MW
Data centre projects we design and equip

8 countries
Projects delivered

30+ years
Power-industry experience in our team

60+ projects
In total, 2021 to 2026

Send us your single-line diagram or equipment list.

We reply within one business day.

TIME IS MONEY. WE DELIVER.
Austin, TX · Vancouver, BC
